Product Description

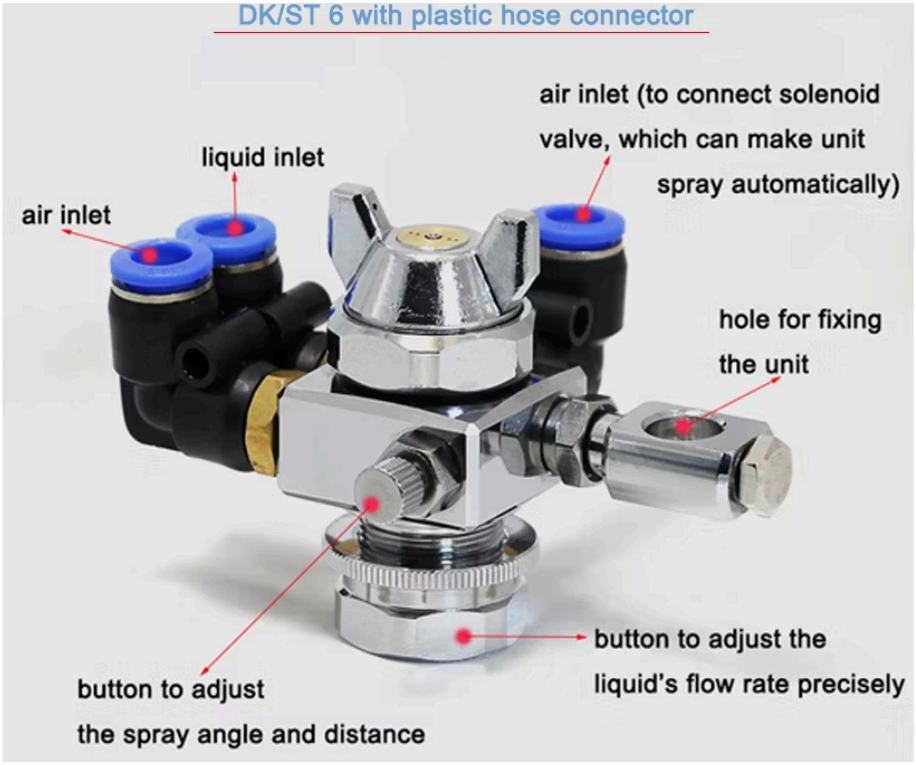

Product Name	Low-Pressure Atomizing ST/DK Automatic Spray Mold Release Agent Spray Gun
Material	Stainless steel spray head with brass nozzle body
Material of seal	Rubber
Spray pattern	Flat fan spray pattern and round full cone spray pattern
Droplet size	**30 to 110 microns**
Net weight	About 300g per piece
Feature	Adjustable spray angle and flow rate; anti-dripping; automatic
Payment	Western union, Paypal, T/T, Visa, Money transfer
Delivery time	Shipped in 3-7 working days after payment confirmation
Delivery method	By air express, by sea
Application	Humidyfying, coating, cooling, gluing, lubricating, marking
MOQ	1 pc
Customized service	Nozzles can be customized according to your requirements.

Data Sheet

Style No.	Spray orifice dia.(mm)	Product Feature	Spray pattern	Spray orifice dia. (mm)	Liquid flow (ml/min)	Air consumption (L/min)	Widest spray width (mm)
DK-5-1	0.5	Standard model,which can be applied to various purposes. Normal working air pressure is between 0.3-0.4 Mpa. When air pressure drops to 0.2 Mpa, Needle valve will stop working to prevent liquid from leaking out. This model is more suitable for enclosed and narrow space.	Spray pattern is adjustable. It can be adjusted from oval spray pattern to round pattern.	0.5	0-60	60	200
DK-5-2	1.0			1.0	0-250	80	250
DK-5-3	1.3			1.3	0-360	100	350
DK-5-4	2.0			2.0	0-600	140	400
DK-6-1	0.5	This model works at low pressure. Normal working air pressure is between 0.15-0.4 Mpa. Needle valve will be not affected by atomizing air pressure. It needs a air valve control switch to control the needle to prevent liquid from leaking out. This model is more suitable for covering wide area or concave edge.		0.5	0-60	60	200
DK-6-2	1.0			1.0	0-250	80	250
DK-6-3	1.3			1.3	0-360	100	350
DK-6-4	2.0			2.0	0-600	140	400

Product Description Company Info.

The flow rate, spray angle is adjustable according to your request.

Why Choose it?

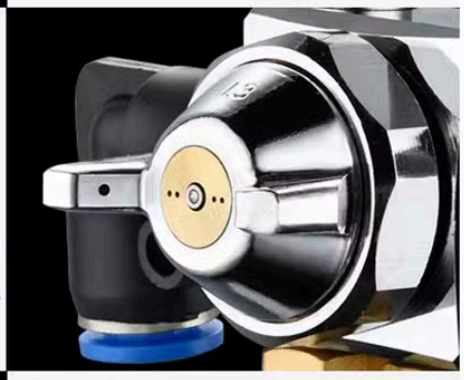

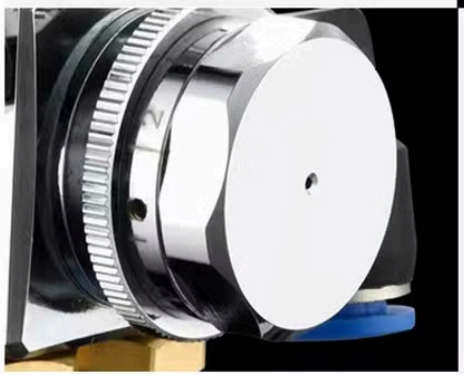

◀ Stainless Steel Nozzle

The needle nozzle is made of stainless steel and it has been hardened, which can make it wear-resistant, long usage life and better sealing performance.

All Copper Hood ▶

Improve paint utilization efficiency, atomize evenly and finely. All copper processing makes it wear-resistant, durable.

◀ Flow Regulating Valve

Loose adjustment: makes the flow is increasing.

Tight adjustment: makes the flow less and less.

About Us

Shanghai Xinhou started 2004 in the outskirt of Shanghai, near to Hongqiao airport, ,as a professional manufacturer of nozzle. Since then the production line has increased to including a wide range of spraying nozzles ,ranging from fluid or gas spray nozzles to ultra high precision nozzles. Our spray nozzles are used in more than 200 industries for applications such as cleaning, coating, cooling, drying, lubricating, dispensing, sanitizing, marking and more.

Shanghai Xinhou has won great fame in both domestic and overseas markets and have established business with many famous customers already worldwide with our trustable quality products, especailly in automobile industry, we supply for some top companies such as TKS , and some renowned enterprise whose projects involves Mercedes Benz, Tesla ect. Besides, we also supply for many clients from other industries, such as those from industries of food, marine, chemical, pharmaceutical, environmental protection and so on.

With an exclusive focus on spray technology, and with a wide variety of nozzles ,Shanghai Xinhou has the expertise to help you to find out the nozzles that suit you best.

OUR ADVANTAGES

Favorable location

We are located at Sijing ,a town in Shanghai, near to Hongqiao airport. This location puts us in a very favorable position in terms of reponsiveness to customers' visit as well as significant reductions in transportation time and costs.

Our successful cases

We constantly supply for some renowned companies in automobile industry worldwide, such as TKS in USA, and some renowned companies in Italy whose projects involves Mercedes Benz, Nissan ect. Besides, we also supply for many clients from other industries, among which the most famous are China Power and the cooperator of COSCO. Our quality has won their trust and we established long-term and stable cooperation .

Flexibility in operations management

As a flexible manufacturer, we are enable to respond to customer orders quickly, provide a broad product range, or introduce new products to the range effortlessly. The operational flexibility is determined primarily by our young and energetic team who are professional, creative, sincere and have the sense of responsibility.

A wide variety of products

We have spray nozzles available for a wide range of pressures, flow rates and spray patterns, among which you can choose the performance characteristics that suit you best.

Quick delivery

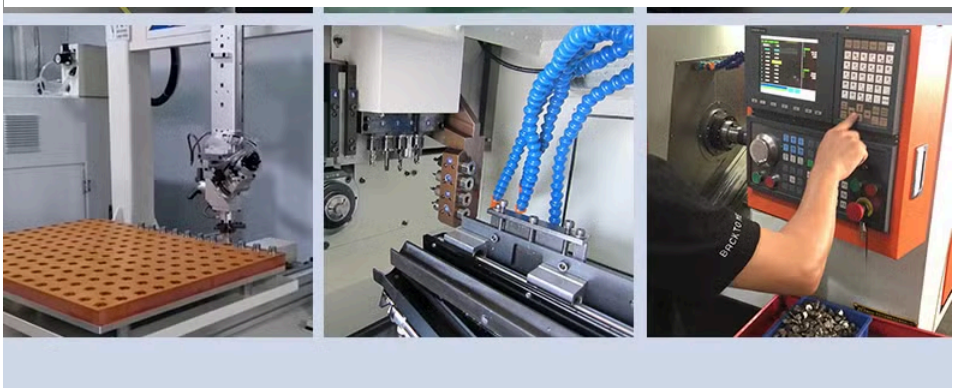

The flexible management enable us to provide our clients faster delivery, as well as expedite shipping based on clients' option. For some standard items that we have in stock, we can even provide immediate delivery.
